

Benefits of Epilar Treatments

Benefits for the Professional:

- No initial investment in training or equipment
- Works on all skin types, regardless of skin and hair color
- Simple to apply
- An Epilar® System session takes only a few minutes
- Prevents in-grown hair
- Soothing effect on skin post waxing – leaving the skin soft and smooth between treatments.
- The procedure reduces pain in connection with waxing
- Can be combined with other epilation methods
- Enables the spa/salon to expand its treatment portfolio
- Attractive revenue potential
- Price structure offers promotional opportunities
- Provides PR / marketing backup and support

Benefits for the Individual Client:

- Removes unwanted hair permanently
- Most Epilar® System users will notice that the re-growth time will be doubled and the number of hairs reduced by at least 20% by each treatment
- Gentle and efficient, with no side effects
- A session only takes a few minutes
- Works on all skin types and all hair colors anywhere on the body
- Price for treatment lower than other lasting methods
- Solarium/Sunbathing prior to session no influence on effect
- Can go into sun 24 hours after a treatment
- Well tolerated – allergy tested with no adverse results
- Product not tested on animals
